01 PROFILE

I am a Product Design(Ba Hons) Graduate From the University of Lincoln. Throughout my degree, I took modules in CAD, Design Thinking, Sustainable design and Modeling. These and the topic of my dissertation Artisan-ship have intensified my passion for design. I am Currently Looking for a job to do with modeling whether that be CAD or prototyping/real modeling. Being adaptive and open to new learning experiences I am currently learning about the programs I have not used and are key in the industry such as AutoCAD, Revit and Solidworks. I am engaging and personable and work well as part of a team.
